VMware Explore —  
People's Choice Awards

VOTE FOR US!

We're up for a People's Choice Award at VMware Explore, and we need your vote!

Vote for Francois Cattoen and Emma Price's Session, "[From Hallucination to Automation: Architecting AI with Ontologies & MCP](#)" as they show how to architect an "Agent of Agents" using the Model Context Protocol and enterprise Ontologies — connecting your toolchain and pulling real insight from VCF, Rally, and Clarity.

This is enterprise AI at its most exciting! Cast your vote now.

**Beyond The Chatbot: Building The Data Foundation For Agentic AI**

Bolting a chatbot onto your existing tools isn't AI transformation — it's a shortcut that stalls out fast. In his new Forbes Tech Council article, Serge Lucio, VP and General Manager of Broadcom's Agile Operations Division, breaks down what actually separates real agentic AI from the hype: domain-specific agents built on accurate, connected data. Discover why ontologies and data provenance matter more than the model itself, and what it takes to align AI execution with strategy.

**From AI Hype to Real Value: The New Era of Strategic Portfolio Management**

AI copilots assist your team. AI agents act on their own — planning, executing, and optimizing entire SPM workflows without waiting on a person. The shift is here, but trust is the real barrier: most enterprises hesitate over data quality, security, and audit-ability. See how ValueOps Vaia solves this with a "governance by design" approach, giving you autonomous AI you can actually trust with your strategy, your data, and your next big decision.

**The Token Economy: Virtualizing the Labor of the Future**

We've virtualized the machine, the network, and storage. Now we're virtualizing labor. As AI agents become your new virtual colleagues, treating their token usage as general overhead leaves real value on the table. Learn how tokenomics turns AI computing into "labor hours" you can track, capitalize, and tie directly to specific projects — with automated AI timecards that prove the ROI your private cloud investment was always meant to deliver.
